#: (702)-338-9427

rmrz.cristian96@gmail.com

My skills in web development include HTML5 & CSS3 front end development, JavaScript, familiarity with JQuery, and the Adobe Creative Suite. I am experienced in using various OS tools in OS X and Linux. I am also interested in back end development with Python and low level programming in C.

Apart from my technical skills, I have experience working in teams, writing utilizing targeted language and rhetoric, and have working knowledge of Spanish and French.
